Subject: Re: State Farm Funds

Betty and all Board Members.

I am sorry if I was not clear with the message about State Farm account.

The blame if there is one is on me. When we added all the accounts to get more interest, a good system was not set up from me to keep track of the three groups that have money in State Farm.

because we are having so many problems with our freezer and refrigeration. I wanted all to know before the next meeting that PCS needed to get funds to pay for freezer, (because we need to write grants to do projects).

Please know that this was my error and call to stop by office so I can review this with you.

I will have full details at meeting also.

NOTE: THIS WAS A NIGHTMARE!

Thank You

Peggy

Subject: Re: State Farm Funds

I want to know how this can be, What the hay/heck or better yet, hell?

I thought all was good from our meetings this past spring (2012) I want to know how this can be? Was it due to someone commingling funds or worse yet, someone messing with the books? Maybe it is time for a third party (Oregon Dept. of Finance & Securities to investigate)??? We have become a crazy entity that has no clarification on our intents & deeds under your leadership & so called- El-Presidente crap- that you spew!!

What have you done/or pissed off now Jeff ? We deserve an explanation!!!

NOW

Betty
