RE: The PCS Program Managers Public Meeting at City Hall October 4, 2012

To the PCS Board of Directors

Dear Board of Directors,

It has been brought to my attention that the clipboard being passed around was not a sign in sheet as I had thought. I did arrive at the meeting late and was under the impression that they just wanted to know who all attended the meeting that night. Please scratch my name off of that list, as I do not want or believe that the current Board should resign from PCS. I also believe that other people were led to believe that this was a sign in sheet and not a petition to remove the entire PCS Board of Directors.

I have also been informed as to what I was quoted in saying during that meeting. I urge you to please get a copy of the audio from that meeting and hear the entire statement that I made. I had said that in knowing June, working with June and knowing the background of the Kids Kloset, that I felt that there had been term limits in force at one point in time for the Board, but that I did not know if that was when the Kids Kloset was being operated under the 501c3 of the Rotary Club of Philomath or the Philomath Fire Department or PCS. I did not say that the PCS bylaws had at one time or another have term limits for Board Members in their bylaws.

Please know that I support the good work at PCS that all of you have accomplished and that I know first hand how much dedication and time it takes to volunteer at PCS.

Sincerely,

Dena Smith

NOTE: This is only a sample of the many attendees that were tricked into signing the petition to remove the entire PCS board

Jeff Lamb

Jeff—

Lupe was not able to attend the 10/6 meeting, and I thought the petition was to resolve the disputes. So my signing for Lupe was incorrect and my signing without understanding the exact nature of the petition was inaccurate.

One of the terrible things out of this mess is attempts to assassinate character of others, including you. I do believe this will make resolving the disputes brought out by the Program Directors harder.

Marti has said she would ask the Board to accept the end of my leave-of-absence, so I could be an active part of resolving the problems. Or let me know when the next meeting is and I will ask for that myself.

Lupe and I both think PCS has benefitted greatly from your efforts, especially in raising funds and getting the building built. But you might not be the best one to resolve the Program Directors complaints and the lack of written guidance for our Board and volunteers. We need policies and procedures and I suspect that would be both hard for you to establish them and also to respect them when they are in place. You have taken responsibility for everything good and were ready to be held responsible when things went wrong. In my opinion this organization has grown to where that is no longer necessary for any one person to do.

Why don't you and Debbie take a break from PCS, and then see if you want to serve again in the future. Many good people have stepped up and said they would serve on the Board, which would enable PCS to continue from the great position you two have accomplished.

Sincerely, Bardon

Subject: Extreme Character Assassination

Bardon and Lupe,

This is a low and cheap shot below the belt and meant to do nothing but incite violence. It was just posted on the GT. I need to know if either of you are involved in this attempt to destroy me and Debbie. Both of your names have been mentioned as signing the petition to sack the entire PCS Board.

Enough of the pathetic defending of Jeff Lamb and "all the good he has done". How many organizations or efforts does he have to taint in his thirst to feed his ego does Philomath have put up with? For those of you too new to our city to remember, this is the same situation he found himself in while on the Library fund raising effort. He was finally removed from that position by the Mayor for abusing volunteers and questionable decision making involving Library funds.

Next up was his time on the Chamber of Commerce Board where he helped ruin the standing of that organization by among other things, tolerating the continued employment of the Director who was a registered pedophile but could be counted on to do Lamb's bidding.

The recent incident involving urinating on an emergency room nurse while intoxicated and then suing the County in an effort to cash in on his misbehavior speaks volumes as to his character.

Now this incident which is entirely consistent with his past record. Had the volunteers and the GT not exposed this, Jeff and his hand picked Board replacements might have gotten away with another abuse. Anyone want to ask why there was no community outreach or notification to find new Board members who just might stand up and dare challenge President Lamb on how CSC is being operated? Those Board members who continue to tolerate this situation are either naive or as guilty as Lamb and should do Philomath a service and also move on.
