Importance: High

Peggy,

Just a few comments in regard to your message below. You attended the PCS Executive Board meeting on July 12th where the issue of the Philomath Gleaners was brought up. "My recollection is that you were in agreement with the thoughts of others at the meeting as expressed by Jeff in his memo to Susan James and the second message directed to the Board Only." You seem to be questioning the timing of here. His email message to Susan was supposed to be a heads up for her about potential action to be discussed at our Board meeting on July 16th. WE talked about the need for this communication at the exec meeting. WE also agreed to give the full board a heads up for discussion at the July 16th meeting. So, let's put this all in perspective. WE all expressed some degree of frustration with issues involving the Gleaners at this executive meeting. WE agreed to bring it up to the full board for discussion and possible action at the upcoming meeting. Jeff was to make Susan James aware of this. The message he wrote to Susan was after our meeting to provide this notification. She should have been the only person outside of the PCS Board of Directors to know about this pended discussion and possible action. How others (Sharon Thornberry) got involved is not known but sadly now a reality. Like you I am glad the issue is behind us. Hopefully we can learn from this experience and move forward together realizing we are all volunteers working together for the community. To have something like this explode and do harm to Philomath Community Services would be a great shame.

Regards,
Ken

PCS Board,

Please note the date and time the e-mail was sent to Susan . I see no mention of full board action.

Please note the message to board was at 07//12/12 at 2:16. the reason i am sending this is to let you know that we can not operate a board with out everyone knowing the true and complete information. No one should be sending out information with out full board voting and aproval.

I am so glad the issue is done and the Gleaners are staying.

Thank You, Peggy
