Philomath Community Services
Board Members

I was dismayed at the letter dated Sept 10th 2010² After 5 years of my service for this Team.
But the bottom line this issue is not about me. I feel this was brought about because of control.

I will not terminate my position because of directors have requested that I stay.
That being said / I need to put in writing the issues I have with The President and some current board members.

The yelling and vulgar language at board members and directors is unacceptable and should never be tolerated under any situation.

Also the President or any other person should never come to this location with a gun.

The excuse that "he is a big guy" and I am afraid -should not be tolerated. Also board members have a duty to do something rather than say "oh that is just Jeff".

The PCS board needs current policies of behavior and clear rules of what will happen if not obeyed. These should be reviewed each year and posted in view of all.

Every board member should have the right and is the duty to report any problems without

being labeled as not a team player. THIS CAME FROM CHERYL GOOD REPORT 1-21-12'

I feel that there needs to be more control over minuets so they can not be changed with the excuse "that the president needs to approve them".

All of that being said I am now requesting that the Current Board remove Jeff Lamb as President of Philomath Community Services to protect our standing with The Attorney Generals Office and while we still have Directors that are running their programs. Both of witch is greatly in danger.

There is also problems with the State Farm account and no one except Aaron called me to discuss them."

Regards

Beggy Clark

NOTE: SEE HOW THE MAYOR AND CITY MANAGER USED THE ALLEGATION OF THE GUN ISSUE AND SPREAD IT TO THE ENTIRE CITY COUNCIL AND STAFF
